

Emergency Cuddles
for kids

Get Involved

Bring Emergency Cuddles to Your Own Community

01 | Choose a Special Occasion

When Emergency Cuddles began, then 7-year-old founders Emme and Ava Allen collected stuffed animals for kids facing medical emergencies instead of gifts on their birthday. Join ECFK by donating your birthday or other special occasion to collect donations for children who are experiencing stressful or scary life circumstances.

02 | Gift Your Donations

You can either send your donations to Emergency Cuddles for Kids and we will distribute them to children in need, or you can give your donations directly to your community, including places such as hospitals, ambulance services, homeless shelters, and other organizations that serve children in need.

03 | Report Your Efforts

Whether you give your donations to us or distribute them to your community yourself, be sure to report the stuffed animals you collected. We would love to celebrate the impact you have had on your community with you!
